NAME

SO FUNKTIONIERT ES

Zähle die Augen von allen drei Würfeln zusammen und schreibe das Ergebnis in das Kästchen.

1

A visual addition problem. It consists of three boxes, each containing a different number of dots, followed by a plus sign, then another three boxes, followed by an equals sign, and finally a dashed box. The first box has 3 dots, the second has 4 dots, and the third has 4 dots. The dashed box is empty, representing the sum of 3 + 4 + 4 = 11.

2

1 + 4 + 2 =

3

A visual equation showing three boxes, each containing a different number of dots. The first box contains 3 dots, the second box contains 3 dots, and the third box contains 1 dot. These are added together to equal an empty box.

4

A visual addition problem using dice. It shows a 1-dot die plus a 4-dot die plus a 3-dot die equals a blank dashed box.

5

6

2 + 3 + 6 =

7

A visual addition problem using dice. It shows three dice: the first has 1 dot, the second has 6 dots, and the third has 1 dot. These are followed by an equals sign and a dashed box for the answer.
